Text questions appear as a list of responses. Each response is highlighted.

## Why did you decide to start using a webpage?

Provide another resource for students. We were told to do so. common for kids I started using a webpage because I want to modernize my classroom. I also want it to be a useful tool for parents and students to use at home. To help facilitate communication with students and parents. Also, to reduce the number of questions from students about when something is due, how they can get an extra copy of the assignment, etc. Inform parents As a method of communicating with parents and students. Easier to let parents know what is happening in the classroom. As a resource to communicate with parents To pr ...

## Do you use other web applications in addition to your website? If so, what?

No Yes, United Streaming for Science Instruction, testing No No...but I would be interested in exploring GoogleDocs, GoogleSites Want to use others - including Moodle/Blackboard, Blogs, etc no Zangle PowerAlgebra.com aka SuccessNet.com for my Focus class No NO no. No no No No No, but I do run two different websites. the second site is for the 8th grade Washington D.C. trip to keep parents informed and to link parents to useful sites on the web pertaining to the trip. None used No No Occasionally we link w/ our students to use Poetrymaker.com, a phases of the moon site, scholastic book wizard, some data bas ...
